Darwin Risdon  
1301 – 16 Avenue NW  
SAIT Polytechnic  
Calgary, AB, T2M 0L4

Dear Mr. Risdon:

It is our pleasure to endorse SAIT's School of Information and Communication Technology, particularly its Information Technology – Telecom Systems program.

Founded in 1916, SAIT Polytechnic is one of the most established technical schools in Canada. SAIT's Telecommunications Technology program, itself founded in 1965, is also one of Canada's oldest, and has graduated thousands of Technologists and Journeyman Apprentices over the years to serve the regional, national and international Telecommunications industry. Many of TELUS' team members began their careers as graduates from SAIT's Telecommunications program.

The telecommunications industry has relied on SAIT to provide top technical people, at all operational levels from Craft through to Engineering and Management, and will continue to do so. SAIT's Polytechnic Telecom program stand-out as one of the leading training programs in North America.

We wish SAIT Polytechnic – Telecom Systems every success.

Sincerely,

Suzy Moutinho  
Director, Transport
